-  **Ceramic Foamcore** — Ceramic impregnated dense surface. It has a build-in memory to bounce back from pressure. Excellent strength, rigidity, and warp resistance.
-  **Gatorfoam** — Durable core of polystyrene foam bonded on both sides to patent Luxcell® facings that are wood fiber veneers impregnated with a proprietary resin.
-  **Museum Board** — pH balance fiber board to meet aesthetic, chemical and mechanical properties set by Library of Congress.
-  **PlexiGlas face mounting.** Artwork face mounted on Plexiglas to create a frameless floating effect, and back by a MDF board for hanging.
(Please call for quote)
-  **Sintra mounting.** The most popular mounting for fine art photographers. It creates a super smooth, and chemically stable surface.
-  Other mounting material (e.g. Plexi Glass, Sintra, Lexan, Masonite) available upon request.
-  **Lamination** — 3 mils, 4 mils and 5mils UV lamination available (price shown is 4 mils).
5 mils laminate has pebble finish and is suitable for outdoor application. (please call for quotation)
-  Custom archival mat cutting available, please call for pricing.
-  Canvas stretching available please call for pricing.
-  **Normal turnaround time is 1 business day per process (e.g. print, mount and laminate are 3 processes) 50% more for 2/3 time rush and 100% more for 1/2 time rush.**

All prices subject to change without notice, please read terms and condition before order.
